1. What does it mean when we say the kings of the First Dynasty of Egypt were not simply individuals, they were bearers of a Power (64-65)?
2. How did the Egyptian pharaohs develop their theology to substantiate their claim to kingship (65)?
3. What did the pyramids represent? How was this a change from the earlier views that the Egyptians held concerning the death of the Pharaoh?
4. What do the pyramids tell us about the level of civilization that Egypt reached in the 2600s?
5. The author of the textbook makes the comment that "it is possible that the genetic code was a little less fragile, so long ago (114). Clearly, the early generations in Genesis married blood relatives since there were no other possible choices. What caused the genetic code to become more fragile over the generations?
6. How do the flood stories indicate that the Great Flood was a global flood rather than a local flood?
